---

More than 5 years of experience as a FrontEnd Developer with React. Passionate about clean code, best practices, and continuous improvement. Led refactoring and optimization of the core component library at [Channel Payments](#), significantly improving usability and ease of use across projects.

**Main Stack:** React, Typescript, Next.js, Tailwind CSS.

## PROFESSIONAL EXPERIENCE

---

### Channel Payments

Arizona, United States

Senior Frontend Developer

February – December 2024

- Developed a library of reusable components and utilities for the company's different projects to maintain UX/UI consistency and accelerate the development and delivery of new products by 60%.
- Conducted risk and impact analysis for features to be implemented in each sprint, resulting in better planning, appropriate decision-making, and a 10% reduction in the risk of incomplete deliveries or integration conflicts.
- Participated in the Frontend team's code review processes, providing timely feedback to ensure adherence to agreed-upon development standards and promote the implementation of best practices.

### Wadara Servicios Tecnológicos

Arizona, United States

Semi Senior Frontend Developer

March 2024 – February 2024

- Proposed the use of a schema validation tool like "yup" to simplify the management and validation of dynamic forms on our "React" platform, reducing the logic complexity by 50%.
- Led the refactoring of outdated components in the system that were complicating the extension of new functionalities required by stakeholders.

### Wadara Servicios Tecnológicos

Caracas, Venezuela

Semi Senior Frontend Developer

May – November 2021

- I built an application to automate the interview management process for a company in the insurance sector, optimizing the process by 50%.

## EDUCATION

---

### Santa Maria University

Caracas, Venezuela

Systems Engineering

October 2020

Thesis: Mobile application with geolocation for automated SMS dispatch.

## ADDITIONAL SKILLS
